**Subject:** Wetland and riparian area protection policy

California State Water Resources Control Board:  
Wetland and Riparian Area Protection Policy

To Whom It May Concern:

I am writing today on behalf of the Northern California Council, Federation of Fly Fishers, and the 31 member clubs and over 6,000 members here in Northern California. As fisherman we are vitally concerned about the care and protections for California's streams and riparian habitats. To this end, we are concerned that the CWRCB take the most protective action possible.

We would endorse Alternative 4 as the best preferred alternative as it has the best chance of the protections needed for wetlands, streams and habitats.

Thank you for taking our input on this vitally important issue.

Sincerely,

Dr. C. Mark Rockwell, D.C.
